

RM@SCHOOLS 3.0 AT THE EUROPEAN RESEARCHERS' NIGHT, HUNGARY

Bay Zoltán Nonprofit Ltd. organised a separate tent for the RM@Schools 3.0 project.

The program of the tent were the following:

- „Quick Quiz” about the critical raw materials
 - for the quiz we have prepared posters containing all the needed information for having the right answers (everybody needed to go through the posters and through knowledge transfer can be implemented)
- posters and leaflets about the project, so everybody who stepped could understand why the separate tent has built up
- presentation about the project – made by Patricia Groó-Nagy
- and presentation about the toolkits of the proejct made by Ádám Vida
- and presenation about the project website and its usefulness made by Patricia Groó-Nagy

At the tent people could find also some „Luck Gravel” made from marbel to have some memory about the tent.

All participants who made the Quiz received an RM@Schools Certificate as they made the first steps to become for a professional RM Ambassador.

Int he future we are planning to involve these schools and students iinto the project.
