PARTNER'S NAME: GEOLOGICAL SURVEY OF SLOVENIA

ROLE: CONTRIBUTOR TO EVENT

EVENT'S TITLE: VII. CULTURAL MARATHON - AN ENLIGHTENMENT TODAY - THERE IS SCOPIO'S SPIRIT IN US

WHEN: 25.1.2019

WHERE: HIGHSCHOOL JURIIJA VEGA, IDRIJA, SLOVENIA

NUMBER OF PARTICIPANTS: 44 PUPILS AND 1 TEACHERS

SHORT ABSTRACT: On the workshop (Fig. 1), pupils from highschool Jurija Vege, got to know the importance of raw materials in everyday lives. Through the workshop connection between minerals, ore and raw materials was presented. They also learned about classification of raw materials and their importance form modern society. With learning toolkits they got to know the raw materials built in to common everyday objects. These activities helped them raise the awareness about the importance of raw materials, their impact on our lives and make science education and careers in raw materials more attractive for youngsters.

First they were informed about the project RM@schools. 3.0, two important topics were discussed in plenum. First was the importance of Raw matters and other was recycling (Fig. 2).

Workshop: Pupils were divided into 5 groups. They went through 5. different "stations", connected with Raw matters (Figures from 3 - 7):

1. MineralCheck (toolkit prepared in RM@schools. 3.0 project) – learning about minerals
2. KamenCheck – learning about rocks
3. Clasification of mineral resources – classification of different mineral resources
4. Find you raw material – using different maps, pupils found raw matterials needed for production of the assigned object.
5. Minerals in mobile phone – they got to know different uses of raw matterials in smart devices

At the and the aspect of sustainable mining was discussed (Fig. 8). All of content of the workshop was debated and reflection on workshop given by students and teacher was very positive.
