

Student's Card

ResourceRation – A Serious Board Game

Module 1

Questions After Playing The Game

Questions

- Give two examples of resources that are particularly rare or already overused and explain why these resources are overused.
- Give two examples of resources, which have negative effects on the environment when they are overused. Explain why these resources become problematic for people if they are used too much.

ResourceRation – A Serious Board Game

- [illegible]
