

Play with Raw Materials

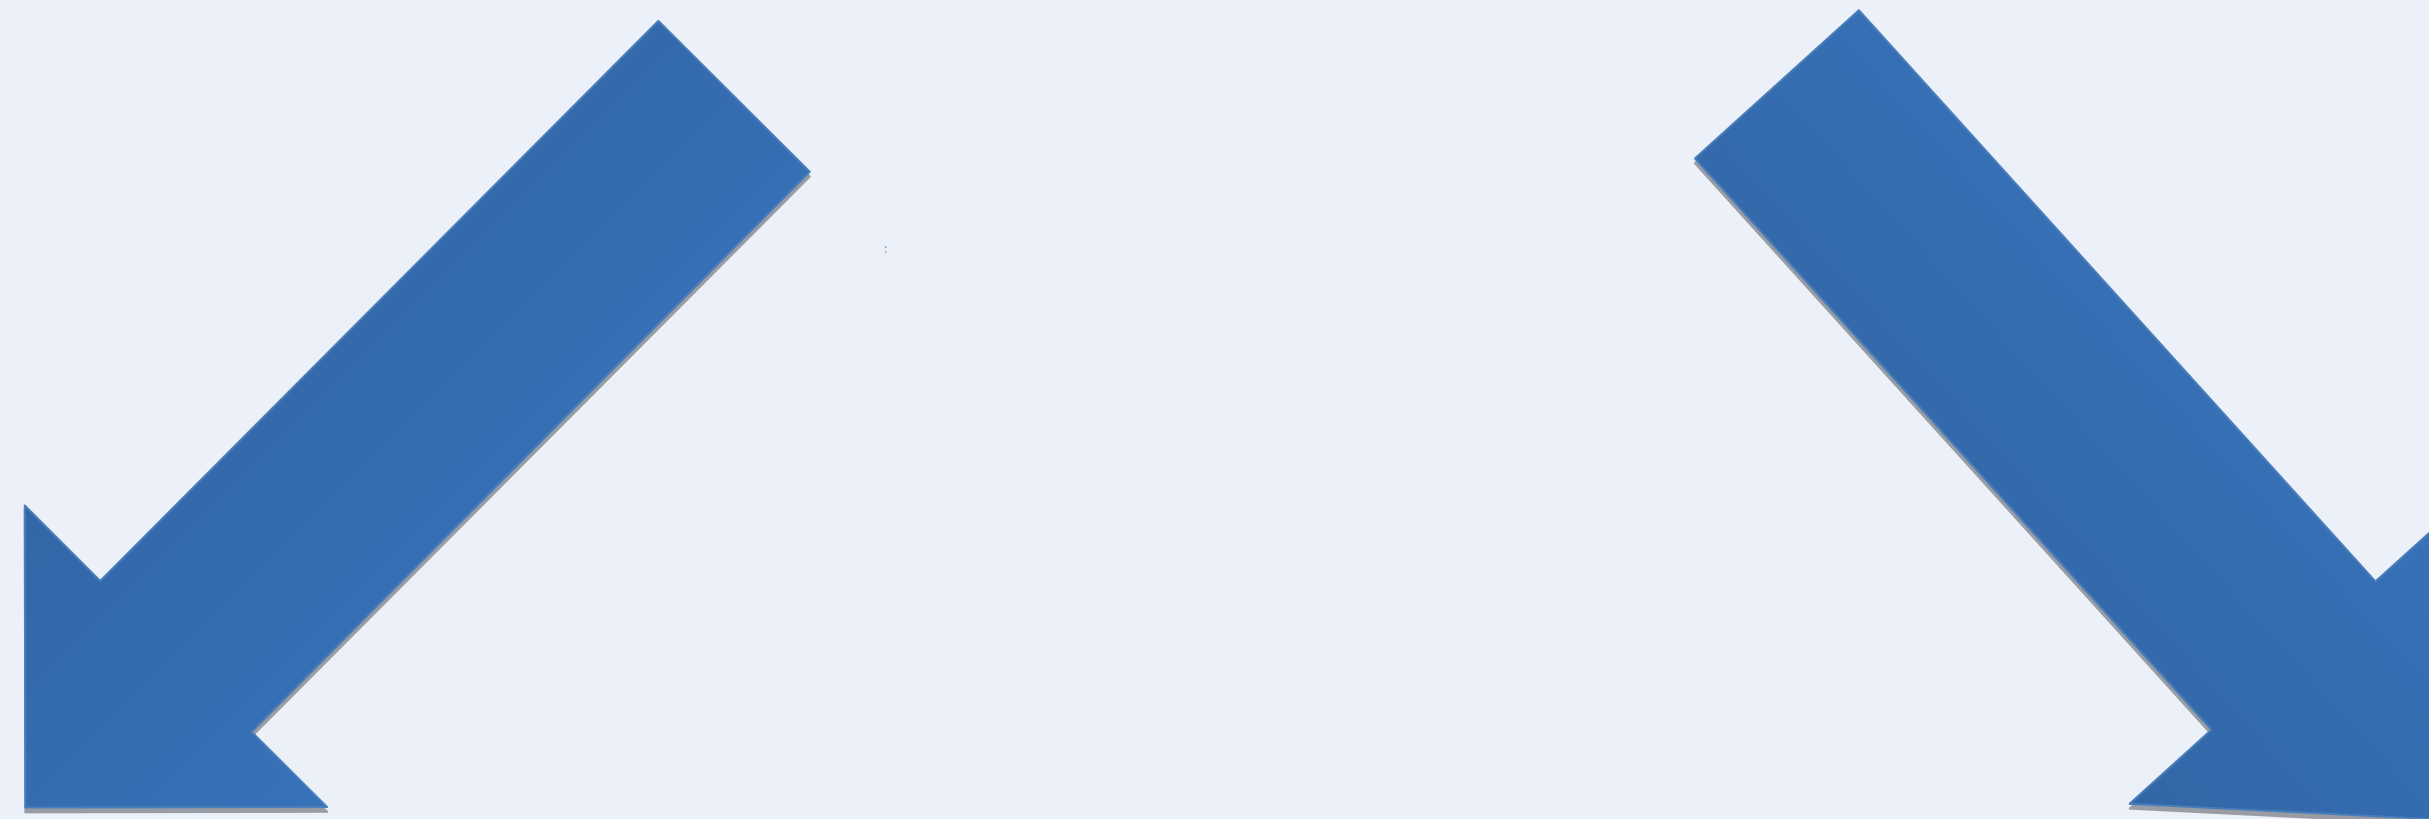

Chiara Rapezzi, Francesca Uthayakumar, Ginevra Salvini and Marco Zambelli

Introduction

- Europe is based on technology
- The problem is that the world is running out of the Raw Materials
- Most people aren't aware of this problem: how can we sensitize them?
Maybe through a

GAME

An alternative edition of the Monopoly. A version in which you have to buy as many deposits as possible trying to respect the environment.

Thanks to this revisited version of the "Bingo" you can learn about the different elements that compose an object or item. You win when you cover all the boxes in a card.
