

Raw Matters Ambassadors at Schools

1st Austrian RM@Schools Final

18 - 19 October 2018
Leoben, Austria

The RM@Schools Consortium

The Raw Matters Ambassadors at Schools (RM@Schools) consortium wants to elaborate a strategic planning of dissemination capacity and methodology to improve the image of science & technology in schools for students of 10-19 yrs explaining the value of raw materials while promoting new professional careers in this sector. The best practice examples will be used for two educational approaches, one targeting school students in the age of 10 to 13 yrs, the other one for 14-19 yrs students. An active learning will be proposed to schools by involving students in experiments with RM-related hands-on educational kits. 14-19 yrs students will be also involved in the dissemination of science by using both their native and the English language to become RM Ambassadors themselves (peer to peer education).

Date and Venue

18 - 19 October 2018
Montanuniversitaet Leoben
Peter Tunner Straße 5 - HS Peter Tunner
8700, Leoben
